Anumodna - Dhruvi didi had the privilege of doing online Pratikraman for all bhaviks during Paryushan Mahaparva along with conducting Kids Online Paryushan.

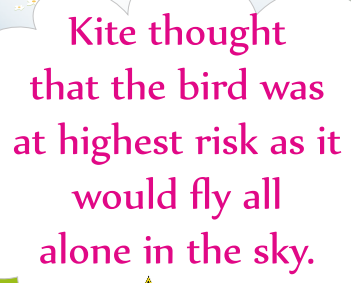

A colorful illustration of a fairy with red hair, a yellow dress, and green wings, standing on a path. A red parrot is perched on a tree branch to the right. In the background, there are green hills, a blue sky with clouds, a kite, and a string of colorful bunting flags.

A forceful or Soulful Flying?

Dear kids once there was a bird and a kite! They both were good friends. A bird often flew here and there but... the kite wasn't able to fly on its own as it was depended on others to fly.

An illustration of a blue and yellow parrot perched on a tree branch on the left. A kite with a smiling face and red heart-shaped eyes is flying in the sky. The sky is blue with white clouds and a bright yellow sun.

Once it so happened that the kite got a chance to fly! It was so happy to be tied with a thread. It thought it was the luckiest to fly as she had a support system, and that if anything would happen it would be safe.

A white thought bubble with a pink border, containing pink text. A small kite icon is at the top left of the bubble.

Kite thought that the bird was at highest risk as it would fly all alone in the sky.

Anyhow, they both started their flight, in no time the bird reached the sky whereas the kite was struggling to be stable in the wind. After some time the bird vanished in the clouds and as it looked back for the kite, it was unable to find the kite!

The bird returned back to look for the kite but the kite was just slightly above the land.

Dear kids what do you think why was the kite unable to fly high?

The kite couldn't fly high as she was engaged with the thread... connected with... tied up with the thread... tied up with commitments. If anybody would encourage the kite to fly then only it could fly. If anybody would wish to bring it down then it would be one with the ground!

Where as the bird went on flying high and high, the more it developed its ability, the more it developed its acceptance level to adjust herself with the flow of wind it learned to fly more higher and higher!

But the kite was tied up in all sorts of commitments, tied up with temporary dreams, temporary relations, temporary companions and what not...

Dear kids I am asking you a question
Today in this Manushya bhav have you
come to fly like a bird or like a kite?

If you make your self engrossed in the worldly activities then you will fly like the kite. But if you allow your inner voice, your Dev, Guru and Dharma to be your wind then you will surely fly high to Moksh effortlessly.

Let's make Samyak Gnan our wings,
the true knowledge to fly high
and reach our ultimate destination **Moksh.**

*Let the Virus not cast a
spell on our
Mind, Body & Soul*

*Let's make the most of our time in
this Lockdown to add
to our Goodluck Bank Balance.*

Take any empty Jar or a Tin from your home. Remove its cap. Take a paper or a piece of cloth and cut it in round shape as per the size of the mouth of your jar. Stick or tie it to the top of the jar and give a small cut in the middle of the paper so that you can put your coins in the jar.

On page no. 13-14 you have good deeds and bad deeds chart. From today onwards try to do as many good deeds as you can. For each good deed you can take out a happy smiley from page 15-16 and place it in jar. In case you happened to do a bad deed, be honest and place a crying smiley in your bank. Continue the activity till next **Manavta Mohatsav (25 September 2021)**. You can also remove the printout of smileys. Do send us your count of good deed and bad deed smileys and get your name and photo printed in our Look n Learn Magazine. Please send your mail on jainmagazine9@gmail.com.
